SUBJECT INDEX

Aldosterone
  synthase activity in the Y-1 adrenal cell line, 581
Androgen(s)
  control by, of secretory component mRNA levels in the rat lacrimal gland, 239
  divergent proliferative responses induced by, in human breast cancer cell lines, 459
  insensitivity in a novel *in vitro* mouse model for prostate cancer, 403
  regulation of gonadotropins by, in rats, 105
Androgen-induced growth factor
  an essential role of, in glucocorticoid-dependent autocrine loop in Shionogi carcinoma 115 cells, 49
Angiotensin II
  glucocorticoids but not mineralocorticoids modulate, binding in SHR vascular smooth muscle cells, 219
Anterior pituitary neuropeptide Y
  effects of progesterone on, in immature female rat, 497
Anti-estrogen(s)
  synthesis and biological activities of thioether derivatives related to the, tamoxifen and ICI 164384, 547
Aromatase inhibitor(s)
  effect of, 4-hydroxyandrostenedione on steroid receptors in hormone-dependent tissues of the rat, 71
  subcellular localization and kinetic properties of, in rat brain, 469

Brain
  subcellular localization and kinetic properties of aromatase activity in, 469
Breast adipose stromal cells
  estrone formation from dehydroepiandrosterone in human, in culture, 195
Breast cancer
  influence of tamoxifen on sex hormones, gonadotrophins and sex hormone binding globulin in postmenopausal, patients, 491
  levels of testosterone, dihydrotestosterone and oestradiol in postmenopausal, tissues, 541
Breast cancer cell(s)
  androgens induce divergent proliferative responses in human, lines, 459
  effect of Decapeptyl (a GnRH analogue) and of transforming growth factor-α on the sulfatase activity of human, 451
Breast epithelial cells
  estradiol stimulated c-*myc* proto-oncogene expression in normal human, in culture, 299

Cortisol
  effects of, on intestinal brush-border enzymes and their sialylation and on thymus growth in suckling rats, 251
Cytochrome *P*450
  cloning and expression of, of porcine adrenal cortex, 227
  expression of, in ovarian granulosa cells, 351
  purification of progesterone hydroxylase, from *Phycomyces blakesleeanus*, 203
  role of, in detoxification of steroids in the filamentous fungus *Rhizopus nigricans*, 271

Decapeptyl
  effects of, on the sulfatase activity of human breast cancer cells, 451
Dehydroepiandrosterone
  estrone formation from, in cultured human breast adipose stromal cells, 195
Dihydrotestosterone
  levels of, in postmenopausal breast cancer tissues, 541
18,19-Dihydroxy-corticosterone
  effect of aging on urinary excretion of, 383
1α,25-Dihydroxy vitamin D_3
  decreased ICAM-1 and ELAM expressions on pulmonary microvascular endothelial cells and neutrophil motivation, 67

cDNA
bacterial expression and characterization of a, for human liver estrogen sulfotransferase, 529
cloning, sequencing and tissue-distribution of 11β-hydroxysteroid dehydrogenase-1, in the mouse, 141

ELISA
purification, characterization and measurement of murine steroid sulfatase by, 91
Endometrial carcinoma
induction of hormone responsiveness and differentiation by extracellular matrix in RUCA-I rat, cells, 259
expression of sex hormone-binding globulin mRNA in human, 517
Endothelial cells
1α-25-dihydroxy vitamin D_3 decreased ICAM-1 and ELAM-1 expressions on pulmonary microvascular, and neutrophil motivation, 67
Endothelin-1
modulation of, binding in SHR vascular smooth muscle cells, 219
Enzyme inhibition
of steroidal hydroxylases, 17
Epidermal Growth Factor (EGF)
regulation of Sertoli cell aromatase activity by prolonged stimulation with, during pubertal development, 375
Estradiol
stimulation of c-*myc* proto-oncogene expression by, in normal human breast epthelial cells in culture, 299
levels of, in postmenopausal breast cancer tissue, 541
Estrogen(s)
cDNA for human liver, sulfotransferase, 529
—dependent expression of heat shock transcription factor and implications for uterine synthesis, 415
—inducible *Xenopus laevis* vitellogenin mRNA binding protein, 505
metabolism of, in kidney and liver from Syrian hamsters, 479
receptor(s)
molecular modelling of the human, 55
myometrial, binding in pregnancy: inhibition by the detergent action of phospholipids, 287
phosphorylation of the human, *in vivo* and *in vitro*, 159
Estrogen binding sites, Type II
hormonal regulation of, in dorsolateral prostate of rats, 233
Estrogen sulfotransferase
isolation and expression of an isoform of, in the rat, 35
Estrone
formation of, from dehydroepiandrosterone in cultured human breast adipose stromal cells, 195
Estrone-3-amine
estrogenicity, antiestrogenicity and estrone sulfatase inhibition of, 281
Estrone sulfatase
in breast cancer cells, 451
inhibition by, of estrone-3-amine and estrone-3-thiol, 281
Estrone sulfate
hydrolysis of, in uterine minces of the 6-days pregnant rat, 277
Estrone-3-thiol
estrogenicity, antiestrogenicity and estrone sulfatase inhibition of, 281
Extracellular matrix
induction of hormone responsiveness and differentiation by, in RUCA-I rat endometrial adenocarcinoma cells, 259

Feminization
of the male host by *Taenia crassiceps* in the mouse, 575
c-*fos*
regulation of, expression by gonadal and adrenal androgens in normal human osteoblastic cells, 149
Follicle stimulating hormone (FSH)
regulation of Sertoli cell aromatase activity by prolonged stimulation with, during pubertal development, 375

Glucocorticoid(s)
expression of heat shock protein hsp90β mRNA in patients with familial, resistance, 345
modulation of endothelin-1 and angiotensin II binding by, in SHR vascular smooth muscle cells, 219
neurotrophins and neurodegeneration, 391
receptor(s)
hormone-induced hyperphosphorylation of specific phosphorylated sites of, in the mouse, 135
identification and localization of steroid- and nonsteroid-binding forms of, in the mouse P1798 lymphosarcoma, 437
retinoids modulate the binding capacity of the, and its translocation from cytosol to nucleus in liver cells, 321
stabilization *in vitro* of the untransformed, complex of S49
lymphocytes by the immunophilin ligand FK506, 187
subcellular distribution of, and evidence for its association with microtubules, 1
Gonadotropin(s)
feedback regulation of, by androgens in rats, 105

Heat shock protein(s)
estrogen dependent expression of heat shock transcription factor and the implications for uterine synthesis of, 415
expression of, −90β mRNA in patients weith familial glucocorticoid resistance, 345
Heparin
effects of, combined with Decapeptyl or TGF-α on sulfatase action in human breast cancer cells, 451
Hydrocortisone
see 'Cortisol'
21-Hydroxylase
levels of mRNA which correlate with the level of activity of steroid, in the kidney, 181
3β-Hydroxysteroid dehydrogenase
modulation by RU486 of luteal, activity in rats, 567
11β-Hydroxysteroid dehydrogenase
changes in, mRNA levels during the rat oestrous cycle, 45
cloning, sequencing and tissue-distribution of, −1 cDNA in the mouse, 141
co-expression of two distinct isoforms of, in the ovine placenta, 337
17β-Hydroxysteroid dehydrogenase
optical properties of the human, complex with $NADP^+$, 77
20α-Hydroxysteroid dehydrogenase modulation by RU486 of luteal, activity in rats, 567

ICI 164384
synthesis and biological activities of thioether derivatives related to, 547
Insulin
in vivo regulation of the steroidogenic activity of rat luteal cells by, 329
regulation of Sertoli cell aromatase activity by prolonged stimulation with, during pubertal development, 375
Insulin Growth Factor-I (IGF-I)
regulation of Sertoli cell aromatase activity by prolonged stimulation with, during pubertal development, 375
Isoflavonoid conjugates in human urine, 97

Juvenile hormone
regulation of the cholesterol ester cycle and progesterone synthesis by, in MA-10 Leydig tumor cells, 83

Kidney
estrogen metabolism in, from Syrian hamsters, 479
correlation of steroid 21-hydroxylase activity with levels of mRNA in, 181

Leydig cells
effect of PCBs on androgen production by suspension of adult rat, *in vitro*, 595
Leydig tumor cells, MA-10
regulation of the cholesterol ester cycle and progesterone synthesis by juvenile hormone in, 83
Liver
estrogen metabolism in, from Syrian hamsters, 479

Luteal cells
in vivo regulation of the steroidogenic activity of rat, by insulin, 329

MA-10 cells
expression of rat cytochrome *P*450 11β-hydroxylase and aldosterone synthase in, 523
Mouse P1798 lymphosarcoma
identification and localization of steroid- and nonsteroid-binding forms of the glucocorticoid receptor in, 437
c-*myc*
expression of estradiol stimulated, in normal human breast epithelial cells in culture, 299

$NADP^+$
optical properties of human 17β-hydroxysteroid dehydrogenase complex with, 77
19-Nor aldosterone
effects of aging on urinary excretion of, 383

Onapristone
effects of, on intestinal brush-border enzymes and their sialylation and on thymus growth in suckling rats, 251
Osteoblastic cells
regulation of c-*fos* expression and TGF-β production by gonadal and adrenal androgens in, of normal human, 149
Ovarian granulosa cells
expression of the estrogen hydroxylase cytochrome *P*450 1A1 in, 351

Phosphorylation
hormone-induced hyper-, of specific phosphorylated sites in the mouse glucocorticoid receptor, 135
in vivo and *in vitro*, of the human estrogen receptor, 159
Placenta
co-expression of two distinct isoforms of 11β-hydroxysteroid dehydrogenase in the ovine, 337
Plasminogen activator mRNA
induction of tissue, and activity by structurally altered estrogens, 421
Progesterone
receptor
inhibition of, binding in pregnancy by the detergent action of phospholipids, 287
regulation of the cholesterol ester cycle and, synthesis by juvenile hormone in MA-10 Leydig tumor cells, 83
Prostate
hormonal regulation of nuclear type II estrogen binding sites in the dorsolateral, of noble rats, 233
FK143, a novel nonsteroidal inhibitor of steroid 5α-reductase: *in vitro* effects on human and animal, enzymes, 357
FK143, a novel nonsteroidal inhibitor of steroid 5α-reductase: *in vivo* effects on, of rat and dog, 365
Prostate cancer
progression to androgen insensitivity in a novel *in vitro* mouse model for, 403
Proteins
editorial: forward to the past or back to, 297

Rat CYP17 active site
computerized homology modeling and site directed mutagenesis of, 209
Receptor(s)
estrogen(s)
inhibition of myometrial, binding in pregnancy by the detergent action of phospholipids, 287
molecular modelling of the human, and ligand interactions based on site-directed mutagenesis and amino acid sequence homology, 55
phosphorylation of the human, *in vivo* and *in vitro* 159
glucocorticoid(s)
hormone-induced hyperphosphorylation of specific phosphorylated sites in the, of mouse, 135
identification and localization of steroid- and nonsteroid-binding forms of the, in the mouse P1798 lymphosarcoma, 437
retinoids modulate the binding capacity of the, and its translocation from cytosol to nucleus in liver cells, 321

stabilization *in vitro* of the untransformed, complex of S49 lymphocytes by the immunophilin ligand FK506, 187
subcellular distribution of the, and evidence for its association with microtubules, 1
progesterone
inhibition of myometrial, binding in pregnancy by the detergent action of phospholipids, 287
steroid(s)
effect of the aromatase inhibitor 4-hydroxyandrostenedione on, in hormone-dependent tissues of the rat, 71
5α-Reductase(s)
cloning, expression and functional characterization of type 1 and type 2 steroid, from *Cynomolgus* monkey compared with human and rat isoenzymes, 307
in vitro effects of FK143, a novel nonsteroidal inhibitor of steroid, on human and animal prostatic enzymes 357
in vivo effects of FK143, a novel nonsteroidal inhibitor of steroid, on rat and dog prostates, 365
Retinoids
modulation by, of the binding capacity of the glucocorticoid receptor and its translocation from cytosol to nucleus in liver cells, 321
mRNA
androgen control of secretory component, levels in the rat lacrimal gland, 239
correlation of, levels with steroid 21-hydroxylase activity in the kidney, 181
effect of 1α,25-dihydroxy vitamin D_3 on, of ICAM-1 and ELAM-1 expressions on pulmonary microvascular endothelial cells, 67
estradiol stimulated, of c-*myc* proto-oncogene expression in normal human breast epithelial cells in culture, 299
expression of heat shock protein hsp90β, in patients with familial glucocorticoid resistance, 345
induction of tissue plaminogen activator, 421
of c-*fos*: regulation by gonadal and adrenal androgens in normal human osteoblastic cells, 149
of cytochrome *P*450 1A1 in ovarian granulosa cells, 351
of cytochrome *P*450 11β-hydroxylase and aldosterone synthase in MA-10 cells, 523
of cytochrome *P*450(11β) or porcine adrenal cortex, 227
of estrogen sulfotransferase, 35
of heat shock transcription factor, 415
of 21-hydroxysteroid in the kidney, 181
of 11β-hydroxysteroid dehydrogenase: changes in the levels over the oestrous cycle in the rat, 45
of sex hormone-binding globulin in human endometrial cancers, 517
of two distinct isoforms of 11β-hydroxysteroid dehydrogenase in the ovine placenta, 337
of type 1 and type 2 steroid 5α-reductases from *Cynomolgus* monkey, 307
over-expression of, of human sex steroid-binding protein in insect cells infected with a recombinant baculovirus, 173
vitellogenin, binding protein, estrogen-inducible, 505
RU486
luteolytic action of, in late pregnant rats, 567

Sertoli cell(s)
modulation of gonadotropic and purinergic responsiveness by islet activating protein in, from immature rats, 431
regulation of aromatase activity in, by cell density and prolonged stimulation with FSH, EGF, insulin and IGF-I during pubertal development, 375
Sex hormone(s)
changes in, induced by the parasite lead to feminization of the male host in murine *Taenia crassiceps* cysticercosis, 575
Sex steroid binding protein
mRNA of, in human endometrial cancers, 517
over-expression of human, in insect cells infected with a recombinant baculovirus, 173
Shionogi carcinoma 115 cells
role of androgen-induced growth factor in glucocorticoid-dependent autocrine loop in, 49
Steroidal hydroxylases
enzyme-activated inhibitors of, 17

Steroid hormones
emerging diversities in the mechanism of action of, 113
role of cytochrome *P*450-11α, in detoxification of, in the filamentous fungus *Rhizopus nigricans* 271
Sulfatase
effect of Decapeptyl and TGF-α combined with heparin on th, activity of human breast cancer cells, 451
murine steroid, purification, characterization and measurement by ELISA, 91
Sulfotransferase
bacterial expression and characterization of a cDNA for human liver estrogen, 529

Tamoxifen
influence of, on sex hormones, gonadotrophins and sex hormone binding globulin in postmenopausal breast cancer patients, 491
synthesis and biological activities of thioether derivatives related to, 547
Testosterone
levels of, in postmenopausal breast cancer tissues, 541
Transforming Growth Factor-α
effect of, in human breast cancer cells, 451
Transforming Growth Factor-β
production of, by gonadal and adrenal androgens in normal human osteoblastic cells, 149

Uterus
hydrolysis of estrone sulfate in minces of six-days pregnant rats, 277
^{31}P NMR study of phosphorus containing metabolites in the, of hamster, 587

Vitellogenin
estrogen-inducible *Xenopus laevis*, mRNA binding protein, 505

We would like to express our deep thanks to the following people for their kind collaboration in reviewing papers for *The Journal of Steroid Biochemistry & Molecular Biology*:
